

ASSTRA AUTOMOTIVE LOGISTICS
TRANSPORTATION OF CARS AND SPARE PARTS

 automotive@asstra.com

Under the oversight of the experienced AsstrA team, the international transportation of cars, special equipment and spare parts runs smoothly and transparently.

CLIENTS FROM THE AUTO INDUSTRY RELY ON ASSTRA'S COMPREHENSIVE TRANSPORTATION AND LOGISTICS OFFERINGS FOR:

-  Transportation of cars, special equipment and spare parts by road, air, rail, and sea.
-  Delivery of cars by auto transporters and moving trucks by driving them.
-  Express delivery of small consignments.
-  Warehouse services in specialized warehouses.
-  Monitoring cargo security and location 24 hours a day, 7 days a week.
-  Customs clearance in Europe and the CIS.

ADVANTAGES FOR CLIENTS

RELIABILITY: AsstrA's supply chain management system is ISO 9001, ISO 14001, ISO 28000, and ISO 45001 certified in compliance with international quality standards.

FINANCIAL SAFEGUARDS: Our liability is covered for up to 3 million euros per insured event by Zurich Insurance Company Ltd (Switzerland).

COMPREHENSIVE SERVICES: AsstrA Clients receive an optimal range of transport and logistics services supporting the delivery of automotive equipment and spare parts, customs clearance, and import-export with consolidation and distribution.

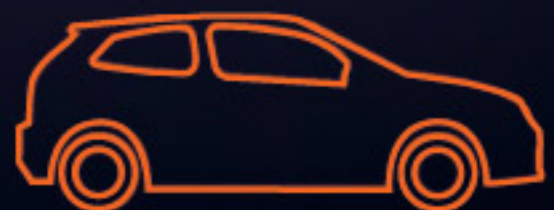

PROVEN PARTNERS: AsstrA cooperates only with experienced carriers on the basis of long-term contracts so as to ensure excellent performance even in difficult market situations.

GLOBAL 3PL PROVIDER

In order to provide world-class transport and logistics services to automotive industry players, the AsstrA corporate group formed a dedicated division called **AsstrA Automotive Logistics**. The division's team develops logistics solutions tailored to the unique needs of automotive industry customers.

For 27 years, AsstrA Clients have relied on us to professionally build automotive logistics supply chains to Europe, including the Baltics, Balkans, the CIS, Asia, as well as the United States. The company's experts take into account each project's requirements, carefully work out cross-border transportation schemes, and offer the best available transportation options.
